PROFESSIONAL SUMMARY

Full-Stack Software Developer with a strong foundation in Computer Science and hands-on experience building scalable web applications using **React, Next.js, TypeScript, and Node.js**. Proficient in managing modern databases (PostgreSQL, MongoDB, Supabase) and delivering high-performance, responsive user interfaces. Eager to contribute technical expertise to a dynamic engineering team.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, SQL
Frontend: React, Next.js, Tailwind CSS, GSAP, Framer Motion
Backend: Node.js, Express.js
Databases & BaaS: PostgreSQL, MongoDB, Supabase, Firebase
Tools & Deployment: Git, Vercel

EXPERIENCE

Full Stack Developer Intern

May 2026 – June 2026

Dvilite Technology Pvt. Ltd.

Bangalore, KA

- Assisted in developing and maintaining full-stack web applications using front-end and back-end technologies
- Designed and implemented responsive user interfaces and interactive web features
- Developed and integrated APIs, databases, and server-side functionalities
- Participated in testing, debugging, and optimizing application performance and scalability

PROJECTS

MeetSlot – Meeting Room Booking System | *MongoDB, Express.js, React, Node.js*

- Developed a full-stack resource management application using the **MERN stack**, implementing Role-Based Access Control (RBAC) via secure **React Router** trees to cleanly separate employee booking zones from administrative dashboard views
- Engineered a responsive user interface with **Tailwind CSS**, creating a synchronized multi-room scroll container with sticky headers to allow real-time tracking and comparison of venue availability
- Architected backend **REST** endpoints in **Node.js** and **Express** to handle dynamic time-slot generation, integrating strict validation logic to intercept and block overlapping reservation requests

E-Commerce Platform | *React, TypeScript, Tailwind CSS, REST API*

- Developed full-stack e-commerce web application using **React** and **Firebase** with product management and admin authentication
- Engineered responsive UI with Tailwind CSS and integrated **Cloudinary** for image hosting and management
- Implemented WhatsApp order integration enabling direct customer engagement from product pages

Animal Detection and Deterrence System | *Python, Django, HTML, CSS*

- Built **Django** web application with AI-powered animal detection using **TensorFlow/ImageNet** to classify 12+ wildlife species and trigger automated alerts
- Developed AI video analysis pipeline processing surveillance feeds for real-time animal detection and species classification
- Designed multi-role dashboard with automated AI-driven notifications for alert management and incident reporting

EDUCATION

APJ Abdul Kalam Technological University

Oct. 2021 – May 2025

Bachelor of Technology (B.Tech) in Computer Science and Engineering

CGPA: 6.92/10

St. Michaels AIHSS, Kannur

Jul. 2019 – May 2021

Higher Secondary Education

97.2%

C H M Higher Secondary School, Elayavoor, Kannur

Jun. 2016 – Mar. 2019

High School Education

100%
